DISCLAIMER: The information presented above is public information and may be distributed and copied. Because reporting of communicable diseases is a constant activity, this data may not reflect our most current, accurate numbers. Some reportable conditions are not listed here if there have been no cases reported since 1/1/2005 in Cowlitz County, e.g. measles.

* Animal bites are no longer reportable as of Feb 2011.

† STI case numbers reflect what is reported by the WA DOH

** In 2009 influenza was added, case definitions have changed yearly since then, affecting who is reported. In 2011 only deaths are reported
